## CORE COMPLIANCE PLATFORM

Manage your Quality Management System(s) with the CORE Compliance Platform. Designed with small businesses in mind, the cloud-based system includes everything you need to maintain your ISO/AS Management System Compliance. It features document and record control, forms to automate compliance, the CORE Learning Center (for training/re-training), the CORE Resource Library for sample documents, training videos and more. We provide live chat, email, and phone support for all CORE Software and Annual Support Options.
