

OUTSOURCED MANAGEMENT

— REPRESENTATIVE OPTION

The Outsourced Management Representative (MREP) program allows a Core Business Solutions' consultant to manage the majority of your quality management system instead of one of your staff. This is a great option for companies with limited time and resources but want to continually improve their quality management system.

CORE COMPLIANCE PLATFORM

Your Quality Management System(s) is managed with the CORE Compliance Platform. Designed with small businesses in mind, the cloud-based system includes everything you need to maintain your ISO/AS Management System Compliance. It features document and record control, forms to automate compliance, the CORE Learning Center (for training/re-training), the CORE Resource Library for sample documents, training videos and more. We provide live chat, email, and phone support for all CORE Software users.
